Airborne is marktleider op het gebied van technologische ontwikkelingen in geavanceerde automatisering en digitalisering van composieten, voor luchtvaart, ruimtevaart, transport en ...

Airborne has everything it takes to manufacture high- end composite products for you. With qualified processes, a full engineering team to support and the right machines and infrastructure.

Discover scalable composite solutions for satellite constellations with Airborne at SmallSat Europe 2025 in Amsterdam.

Airborne combineert zijn specialistische kennis van composieten, software, engineering en mechatronica waarmee we klanten helpen de productieprocessen te automatiseren. We zijn ...

Airborne is a technology leader in advanced composites and digital automation. Headquartered in The Hague, Airborne delivers innovative manufacturing solutions that help customers scale ...

Airborne has automated solutions to manufacture high- end, digital products for you. We put all our manufacturing know-how into the design of the systems and software, to ...

Airborne has a strong legacy in the design and manufacturing of composite parts for the aerospace industry. We are a leading supplier for ultra lightweight structures for space, a ...

Airborne will be attending the EU's largest B2B Space event. Our experts will be in Bremen, Germany, from the 18th to 20th of November, to exchange ideas, connect and explore ...

For more than 30 years, Airborne has played a leading role in the Dutch composites industry, initially as a
