Will halting energy projects benefit our national security?
He noted that all five projects halted on Monday had undergone rigorous reviews,including by the Defense Department. "Ironically,these projects will actually benefit our national securityby diversifying America's energy supplies,providing much-needed reliable power for the grid and helping our economy," Mr. Lippold said.

Are electric vehicle and battery storage projects being impacted?
The electric vehicle and battery storage spaces have been particularly hard-hit,with 11 and 16 projects affected,respectively. Five projects -- or the equivalent of $6.7 billion of lost investment -- were downsized or cancelled in June alone,all of them in the electric vehicle or battery storage manufacturing space.

Why is the Interior Department halting offshore wind projects?
The Interior Department announced it is pausing all leases for large-scale offshore wind projects that are currently under construction,effective immediately. It lands as the Trump administration is facing political heat from skyrocketing energy costsin part from the growth of data centers and artificial intelligence.

Why is Trump halting offshore wind projects?
